

## Home Learning - Year 1

Science	RE	
How do you think we can sort animals?	Why was Jesus viewed as special?	
https://www.bbc.co.uk/bitesize/articles/z9df6g8	https://www.bbc.co.uk/bitesize/clips/zfpvcdm	

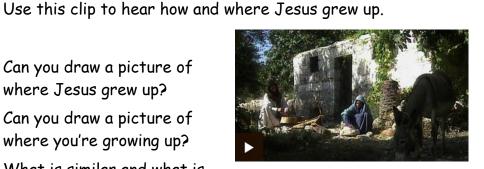

Use the above link to learn about classifying animals into different groups. You should learn about mammals, birds, reptiles, amphibians and fish.

If you have animals at home could you sort them into different groups? If you don't have animals at home you could draw 3 animals of each group.

Can you draw a picture of where Jesus grew up?

Can you draw a picture of where you're growing up?

What is similar and what is

	different?	
Art and Design	Science	
What do you notice about a tiger's face?	What can you observe about January?	

Use the picture of the tiger's face. Can you carefully draw the other side? Think about the lines and colours that would be used.

I can feel...

I can see...

I can hear...

I can smell...

January. Use these sentences starters.

Go outside and use your 5 senses to describe January. You

could write a diary entry or you could make a poster all about

I can taste...
