Science

What do you think you know about animals?

Take a look at this activity;

<https://explorify.wellcome.ac.uk/en/activities/odd-one-out/say-cheese>

Now can you research you favourite animal?

You need to produce a poster that has at least;

- 3 facts about your animal
- What your animal likes to eat
- A map of where your animal likes to live
- A diagram of your animal – you can label the body parts

My favourite animal is a fox. What is yours?

RE

Who is special to you?

Draw around your own hand. On each finger write the name of someone special. Around each finger you can draw pictures or write words about why you think they are special.

Art and Design

What do you notice about animal's patterns?

Find pictures of a Zebra, Crocodile, Giraffe and Tiger.

Compare the patterns that you see, what is similar and what is different?

Can you recreate the patterns using different materials that you can find?

PSHE/Wellbeing

What are my favourite qualities?

Draw a tree with 6 big leaves on it. On each leaf can you draw or write a quality that you possess. These can be anything that you think!

After you have done this, create another tree and write the qualities you admire about someone at home.
